AUGUST CLEAN-UP SALE
FIRST WEEK EXTRAORDINARY REDUCTIONS
 Will mark the opening of what we intend to be the most successful of all sales—always "a House of Value," during this month counting or studying profits is set aside, and this store becomes the "House of Bargains"—We will wind up what has been a most successful season with a Great Sale—Goods are marked far below the regular values, and in the Ready-to-wear section a veritable avalanche has occurred in the prices—

Women's Lingerie Dresses, a passing opportunity at \$2.95
 Economically marked in the regular way these dresses include many favored lines. Now that they bear a sale price, which will be remembered by any of our customers who are fortunate enough in securing one of them. Goss of dresses in mulls, voiles, lawns, muslins, nainsooks, linens, duck, percales; all this season's dainty designs. One we will describe is in mauve mull muslin; design is new; the collar is trimmed with tulle lace insertion and Valenciennes lace; the yoke has a guipure applique; skirt is prettily trimmed with insertion and double tucked bounce at bottom; size 36. This regular \$7.00 dress with the others vary in from \$1.75 to \$7.00 during sale week.
\$2.95
Women's Hose
 Fancy and colored hose in fine thread; beautiful quality lace high hose, regularly sold at 40c to 60c; sale price per pair
25c.

Children's Wash Dresses 75c.
 This is certainly good sale news. Some of these pretty little dresses were marked \$1.75, and none of them were cheaper than \$1.35. All regular stock. One of navy duck is splendidly made and prettily trimmed on yoke with white, and navy linen. A good selection at
75c.
 More dresses for children, but these are better, for an extra 25 cents, we have a much larger selection to choose from. These have had a mark of \$2.25 in some cases, and the cheapest were \$1.75; ages 2 to 10 years. Dresses of white, natural, navy, tan, linen; trimmed with Dutch effect or the white pique dresses. All in this range are
\$1.00
These Dress
Muslins 20c. a yd.
 They originally were 35c to 50c yd.; white or colored grounds; a nice lot to choose from. These will quickly go at
20c.
Parasols are Marked Down
 Parasols that have been selling for \$1.50 and \$1.75; colors navy, white, and black and white.
75c.
 A fine assortment of tulle and taw silk parasols; all this season's stock.
\$1.50

Women's House Dresses reg. \$3.00 to \$4.25 for \$2.00
 An opening thick set with bargains in this section. Neat and splendidly made dresses of chambray, Scotch ginghams, percales in fast colors, and of grand wearing materials. Most of you know the style of dress we have been showing for: \$3.00 to \$4.25; and now that you can buy any of them for \$2.00 is real good sale news. One dress of sky and navy check on a white ground is made of good Scotch gingham; low neck trimmed with sky gingham; sleeves and waistband to match; bodice and skirt trimmed with sky buttons; is sold regularly at \$4.00. This with many others of equally good style make an early exit at
\$2.00
Raincoats that were \$15.00
Now \$10.00
 First come, first served with one of these grand raincoats. Fawn, brown, grey, 34 to 40, and made of absolutely guaranteed waterproof material; reg. \$11.50 to \$15.00; sale
\$7.00
 Regular \$16.00 to \$18.50 raincoats, consisting of silk, rubberized material, in colors tan, taupe, grey, green, etc. 34 to 40 sale week.
\$12.50

OF LOCAL INTEREST

Miss White has secured a position as pianist in the Angus Theatre, Wetaskiwin.

The rain on Sunday has put the roads in a very bad condition once more.

If you want to know what tempus fugit means—borrow some money on a note.

A special meeting of the Progressive Union, U. P. A. will be held on Monday, Aug. 12th, at 8 p.m. in the Spruceville School House. All members are requested to attend. Visitors welcome.

The Methodist Church Epworth League will hold a picnic at Gull Lake on Monday evening, Aug. 12th, weather permitting. The conveyances will leave the church promptly at half past six. Should the weather not permit, the social will be held in the church at 8 o'clock instead. Everyone is invited to come and enjoy themselves. Ladies will please remember the well-filled baskets.

Mrs. Geo. Lane, a well known and highly respected resident of Stettler, was accidentally shot and killed at her residence today. It is supposed that a young son was handling a loaded rifle in the bedroom overhead and it was accidentally discharged and went through the ceiling, entering through the top of Mrs. Lane's head. She died two hours later.

A bartender of one of the Strathcona Hotels has had his license cancelled for selling liquor to an intoxicated person. He had been previously warned by a member of the License Department, but ignored the warning. In issuing licenses to bartenders, especially attention has been called to the fact that it is a violation of the Ordinance to sell liquor to drunken men.

Mr. Winston Churchill, as well as Premier Asquith, took great care in the second day's debate on the supplementary naval estimates to reassure the British people that the best of relations existed between Great Britain and Germany. Asquith not only gave force to those sentiments but added a sentence which should help to satisfy the world of Britain's peaceful intentions. He spoke calmly and with deliberation, declaring of Britain: "We have no aggressive purpose. We covet no heritage. We have no inclination nor any temptation to extend in any way the range of our responsibilities." These words of the British Premier should help to clear the air and should surely tend to increase the desire for a cessation of the mad haste for increasing armaments.

The Lacombe schools will reopen on Monday, August 26th. The Shanahan Bros. gave an entertainment in Fernie's Hall, Gull Lake, on Saturday evening last. The attendance was fair, and those present enjoyed the several selections. After the entertainment a dance was held, and about twenty couples made merry until 11:30.

"I was cured of diarrhoea by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes M. E. Gebhardt, Oriole, Pa. There is nothing better. For sale by Lacombe Drug Co.

May Have A Rink

The citizens of Lacombe want a municipal skating rink, and they will be given an opportunity to vote the money in the near future. Under the new act the town has the power to erect amusement places of this nature. The council is in favor of building a rink, if a guarantee can be given that it will be self-sustaining. In other words, if some responsible parties will guarantee say seven per cent. on the investment for a term of years, the council would feel justified in submitting a by-law to the people. If you are in favor of a municipal owned rink, get busy among the ratepayers and work for it. The Board of Trade is making a strong canvass of the ratepayers in support of the proposed rink.

Gravel Road to Lake

W. F. Puffer, M. P. P., waited on the town council last evening with reference to the graveling of the Gull Lake road. Mr. Puffer stated that he had received assurance that the money for this necessary work would be forthcoming, but wished the council to strengthen his demand with a resolution asking that the work be done. He also thought that if the town would supply the gravel to the government it would help influence the department. Both requests were complied with. A resolution was passed in accordance with his wishes, and an order to allow the government the use of the gravel pit for the sum of one dollar, will be submitted to the Public Works Department. Petitions will be secured from the western part of the district asking that this work be done. The Board of Trade will co-operate with the council in this matter and if resolutions and petitions will get the road gravelled they will be forthcoming.

Rate is 40 Mills

The rate of taxation for 1912 was struck last night. For all purposes it was found that the very low rate of 40 mills on the dollar would be sufficient. This is divided as follows:
Town purposes 17
School 13
Debt service 61
Scavenger 31
For the first year under the single tax system this showing is good, and when compared with other towns in Alberta, will be seen to be very low.

The Creamery

That perseverance always wins is shown by the great success of the Lacombe Creamery this season. Three years ago the Lacombe Creamery was a dead one. No one would send cream. No one had any faith in it. The machinery was allowed to go to the bad, and the whole place was nearly a wreck. Then G. A. Anderson came along. He was a practical butter maker and saw in Lacombe what he considered a good opening. He made a deal for the creamery, renovated it at great expense and commenced business. He had an uphill job, but kept right at it. The first year there was little doing. The farmers thought it could hardly be true that the concern was going to run. However, it did run and has run winter and summer ever since. Each season has seen its patrons increase, and farmers who a few years ago went out of the dairy business are getting back into it again as quickly as possible. This year the creamery is working almost to capacity. The patrons are receiving monthly cheques from \$100 down. The output is in great demand. Everybody is satisfied.

The creamery is making a name throughout the country, and is doing a good work in showing the rest of the world that Lacombe is the ideal mixed farming district in Alberta.

L. I. D. No. 20 W. 4

The Council of L. I. D. No. 20 W. 4 met in Blackfalds on Saturday, July 27th at 2 p.m. Present: S. H. Farewell, Chairman; J. J. Kasha, J. M. Williams and L. H. Ebeling. The minutes of last meeting were read and adopted on motion of councillor Kasha, seconded by Councillor Ebeling. Farewell-Williams, that the arrears of taxes unpaid at the end of 1911 be apportioned to

be expended in the district as follows:
Division I \$295.53
Division II 295.53
Division III 226.57
Division IV 167.46
Total \$985.09 (Carried)

Kasha-Farewell, that the following accounts and pay sheets be accepted and the treasurer be ordered to pay the same:
Wm. Ayers \$2.00
Wm. Petro50

A. D. Davis 37.50
Jas. McNicol 170.00
Dept. Pub. W., Div. 1, 200.00
Dept. Pub. W., Div. 2, \$567.95

Pay sheets:
H. J. Angell Evans \$89.75
P. McLennan 112.75
A. Reed 4.00
D. E. Miller 267.50
R. R. Bailey 56.80
A. D. Gregson 22.25
A. M. Ledingham 110.00
J. H. Barron 121.60
P. H. Lowe 153.80
O. Egan 158.05
J. Ebeling 87.00
John Fay 50.00
Total \$1223.50 (Carried)

Farewell-Williams, that the Government be again requested to survey a diversion around a slough on road allowance between 19-20, 39-27-4, said diversion to be made in S. E. 19-39-27-4, with whose owner this council has made arrangements for the purchase of the necessary land. (Carried)

Kasha-Ebeling, that the attention of the Provincial Board of Agriculture be again called to the nuisance west of Lacombe complained of in the columns of the Western Globe and by other persons. (Carried)

Williams-Farewell, that a meeting of the ratepayers be called on Saturday, Aug. 3rd at 2 p.m. in Blackfalds, to discuss the Rural Municipalities Act. (Carried)

JAS. McNICOL, Secretary.
E. W. Howard Sells Out

E. W. Howard, general merchant, this week disposed of his business to J. R. Shaw, of the Railway St. merchant.

Meeting at Jackfish

A well-attended meeting of ratepayers was held at Jackfish School House on Saturday evening, August 3rd, with J. B. Crocker in the chair, to discuss the New Rural Municipalities Act. Mr. Puffer, M. P. P., in an able address explained some of the good points and powers the new act, if adopted, would give the people themselves, one of the most important ones being that the councillors would have power to "regulate nuisances grounds" within the municipality. This is a matter the Gull Lake residents will hail with joy.

Mr. Jas. Eadie spoke against the act and in a short address gave his views. A short discussion then took place, Messrs. McNicol, J. J. Kasha and others taking part.

Extending the Brick Works

There was a meeting of the shareholders of the Lacombe Brick, Tile and Cement Co., in the Town Hall on Monday afternoon last for the purpose of considering the advisability of increasing the capital stock of the company from \$20,000 to \$70,000. After considerable discussion it was decided to make the increase.

The managers of the company gave interesting information as to the working of the plant up to date. There was an ever increasing demand for the product of the Lacombe brickyard. This season they have already contracted for the sale of their whole output to Edmonton parties, and could easily have disposed of ten times their present make. The prices are getting higher each year. Lacombe brick, in the opinion of the big contractors of the Province, is superior to that manufactured at any other points in the province. This brick has been put to severe tests, such as being soaked in water, frozen and thawed, burned, etc., and has come through with flying colors, and can be used where the heaviest weights are to be borne. As a pottery clay it is unsurpassed, the samples of pottery received from the clay sent to the States for test being of a very high quality.

The only thing necessary to make this concern one of the largest industries in the Province, is the investment of more capital, so that up-to-date machinery can be installed and the output increased. Under the present somewhat adverse conditions the concern is making money, but with the installation of modern machines the manufacturing cost can be reduced at least five dollars per thousand. If the citizens of the town and country can be interested in this enterprise, new drying sheds, permanent kilns, etc., will be built during the season. Mr. Collinge, an English engineer, introduced by E. H. Wilson, was very favorably impressed with possibilities before the company and says that providing the people in this neighborhood will only take a fair proportion of the increased stock he and Mr. Wilson will be able to place the balance as they have already intimated a large brick manufacturer to a certain extent in the company and are sending samples of the clay for his inspection. Mr. Collinge was favorably impressed with the prospects of the Lacombe brick yard, and will advise his old country friends to invest here. The citizens of Lacombe should do all in their power to develop this industry. It is an employer of many men, and there is now and always will be an unlimited demand for the output. It should be a paying investment in the near future, and those buying stock stand no chance of losing money. It is an industry that the Board of Trade should get behind and boost. While we have undeveloped resources of this nature undeveloped, it is useless to attempt to interest others. Boost the brick factory.

ILLUSTRATION OF TACT. These women who were discussing the meaning of the word "fact," and the one remarked to the other that she did not know what it meant. "Well," replied the other, "it's like this. Suppose you were the des and gang up the heaven an' at the gate ye were to meet Peter, ye wadna speak the him about cock-crawin', wad ye? Well, that's tact."

PASSING EVENTS

A fire in Vancouver, B.C., on the morning of July 30th, practically destroyed all the buildings on the west side of Main Street, and a block south of Prior, causing a loss estimated at \$500,000. The origin of the fire is doubtful, one report being that it started in a stable caused it, while another is that crossed electric wires set the spark.

There was a light sprinkling of snow in some parts of Michigan on the night of July 19th. The cold caused damage to crops.

Great floods on the northern coast of Japan have caused immense loss of life and much damage to the crops.

Mr. E. H. Watts, a prominent land owner and brother-in-law of General Sir John French, chief of the Imperial General Staff, was assassinated on July 21st by a dismissed game keeper, who shot him while walking home from church, near Newport-Pagnell, Buckinghamshire. The gamekeeper, after shooting Mr. Watts killed himself.

A young woman who gave her name as Delane Frolaine, and from Brittany, was caught in the act of snatching a valuable painting by Boussin in the Louvre, Paris, on July 20th, but was arrested before she had injured it much. From her incoherent remarks she is believed to be insane.

A flotilla of Italian torpedo boats attempted, on July 19, to enter the Dardanelles, but when it had advanced as far as Chanakalei, on the Asiatic side of the Straits, it had to withdraw, owing to the severe bombardment directed at them from the Turkish forts and ships. The Italian vessels were not damaged. Chanakalei, commonly called Dardanelles, is a town on a flat point opposite Kibritli bairi Port on the European shore. The town is defended by Castle Chanakalei, which of late years has been reinforced with heavy guns and modern equipment. A report that the Turkish Cabinet has decided to close the Dardanelles has caused anxiety as to possible complications in Europe.

The health of Gen. Booth, of the Salvation Army, who recently underwent an operation for cancer on the eye, has improved. The head of the army is confident he will soon recover. He feels as strong as ever.

Returning to Toronto on the night of July 17th from a political picnic at Jackson's Point, Mr. R. A. Smith, one of the most prominent financial men in Ontario, was instantly killed when a motor car fell into a ditch. Mr. J. Lorne Campbell, a broker, and his leg broken in two places, Mr. Victor Ross, financial editor of the "Globe," also suffered a broken leg, while Mr. C. A. B. Brown, veteran school trustee, and the chauffeur, escaped without injury.

The Australian House of Representatives has adopted unanimously a resolution setting forth that "in the opinion of this House any system providing for a bonus or rebate of canal dues to American ships using the Panama Canal would be detrimental to the interests of Australia."

A great mass meeting was held last week in St. John's, Quebec, headed by Judge Monck, of the Superior Court, to protest against the action of Archbishop Bruchési of Montreal, and Bishop Bernard, of Ste. Hyacinthe, in causing to be read in the churches of their respective dioceses pastoral letters interdicting the priests to conduct the Ste. Marie de Montoir College, and threatening parents with dire ecclesiastical penalties if they should send their children to that institution. Judge Monck spoke earnestly on what he termed "propaganda," as unjust that I would be indeed a coward did I not come forward to explain the question from the standing of the priests concerned. Eighty priests had through ecclesiastical machinations, been literally thrown out on the streets, and had not even been granted the right to defend themselves, and had been placed in the position of rangers through the unjust ecclesiastical pastoral letters. Never, he declared, had he heard of so great an injustice, and it was to rally good Catholics to the defence of these priests that he had expressed his views. His lordship said that the facts of the case had long been kept secret, because the press had been kept in ignorance through ecclesiastical influence, and that the instructions of those situated in high places, the truth had been held back.

Mr. Lloyd George announced in the House of Commons on Tuesday that it was the intention of the Government to introduce a bill to deal with labor disputes, such as the present dock strike. He did not define the measure, but indicated that it would probably involve compulsory arbitration and financial guarantees for observing agreements.

His Royal Highness, the Duke of Connaught, Princess Patricia and party returned to Quebec on Saturday from their trip to Winnipeg, where they had a most enthusiastic reception. On Wednesday they sailed for the Maritime Provinces.

The new Turkish government is trying to pacify Albania by a cessation of hostilities and in other ways, and also to modify public opinion in Constantinople by repealing all illegal measures of the late government such as the law against public meetings and the press. Hilmi Pasha, the Minister of Justice, says in his view in the fullest liberty of speech.

The Emperor of Japan died on July 20th from diabetes.

There is great dissatisfaction in China over the selection of Cabinet nominees by the National Assembly, and Yuan Shi Kai's efforts to form a strong ministry have so far failed. He is steadily gaining the support of the various parties, however, excepting the Tung Men Hui, which wishes to have Sun Yat Sen as President, and Tang Shao Yi as premier. The general commanding the Hankow division of the army has telegraphed the secretary of the Assembly warning it that unless obstruction to the government ceased he would bring his troops to Peking and drive the Assembly out. This threat perhaps will make it more reasonable.

The Michigan Progressives divorced themselves from the Republican party as in their State Convention at Jackson, on July 20th. By a vote of 1,000 to 1,000 the delegates went on record as favoring the placing of an entire ticket, both state and national, in the field. A few instructed delegates voted against the motion in order to record the sentiment of their home counties, but explained to the convention that they personally were for separation from the old party.

As King Alfonso, was leaving the Cathedral at Pamplona after a ceremony, a general's horse bolted, throwing the rider and dragging him along the ground. While the general was being dragged, the crowd was so excited as to what to do, the King with great presence of mind sprang from his carriage, caught the horse and extricated the fallen general. He was roundly cheered by the populace.

The Canadian Railway Commission has decided that henceforth it will allow no one to be employed in the service of the railways on engine or train service unless he has first passed a satisfactory eye and ear test.

The Chinaman who, on July 3, attempted to assassinate Sir Francis H. May, the Governor of Hong Kong, by shooting him with a revolver, pleaded guilty and was sentenced to life imprisonment at hard labor.

The United States House of Representatives has passed the bill to create a Department of Labor, the secretary of which shall have a place in the Cabinet. The measure has long been pressed by organized labor, and now goes to the Senate.

Armed Karl Graves, a German, was found guilty on Tuesday by the Scottish High Court of Judiciary in Edinburgh on the charge of spying. He was sentenced to 18 months' imprisonment. Notes regarding guns under construction in the British Government arsenal and other incriminating documents were found in his possession.

Gen. Ivonet, the Cuban rebel, commander in chief since the death of Gen. Estenoz, was killed on July 19th at a farm in the province of Matanzas, twelve miles from Santiago, after the small party accompanying him had been captured. The official report says he was trying to escape. Ivonet took to the field in Oriente Province last May with about 1,500 men, in company with Gen. Evaristo Estenoz. His campaign was a protest against the Morua law, which provided that there shall be no recognition of political parties on the island. The situation is now becoming more peaceable and it is hoped the rebellion is over.

Julius Henri Poincaré, former prime minister of France, the noted mathematician and statesman of the French Premier, died in Paris last week from the bursting of an embolism. Mr. Poincaré was a professor of science at the Paris University, a member of the Institute, and of the French Academy, inspector-general of mines and a corresponding member of the Academy of Sciences at Washington, as well as of all the academies of Europe. He was born at Nancy on April 29, 1854. He was a prolific author of scientific works.

The German battleship "Hessa" rammed a torpedo boat while the smaller vessel was crossing the bows of the warship during a night manoeuvre off Kiel. Three members of the torpedo boat's crew were killed. The damaged vessel is being towed to Kiel harbor for repairs.

Mr. John Robert Sinclair has been appointed to succeed Sir Joseph Ward on the Imperial Trade Commission and Sir Richard Solomon will represent South Africa in place of Dr. Graaf and Sir D. Pieter.

Mr. Asquith went to Dublin last week and received one of the most enthusiastic receptions ever given to a British statesman, and on his return to London on Saturday he acknowledged that his reception in the Irish Capital was unparalleled in enthusiasm. It proved that home rule was enormously strong in the Empire. The Liberals, Mr. Asquith declared, were never more united than they are now. In his speech in the House of Commons, Mr. Asquith characterized opposition to home rule as merely obstructive and chaotic, but powerless to wreck the Home Rule Bill, which would be sent to the House of Lords before Christmas. These he added, with patience and discipline the end was in sight because it was no longer possible for the House of Lords to overrule the decision of the people. The triumph of Ireland's cause would be the first in the Imperial reorganization, of which home rule was the one and only solution. Expressing his disbelief in the possibility of a civil war in Ulster, the premier repeated his previous statement that the government stood ready and sympathetically to consider proposals to strengthen the safeguards in that province. Some extraordinary outbursts were reported by suffragettes, some of whom had followed Mr. Asquith's party from England, one being an attempt to burn the theatre where Mr. Asquith was to speak. The incident was the throwing of a hatchet at the Premier's carriage as the party was proceeding from the wharf to the hotel. Mr. Mary Leigh, one of the eight suffragettes who were arrested, was identified as the thrower of the hatchet. The woman, it is alleged by the police, intended to kill Mr. Asquith. While the meeting in the theatre was proceeding, extraordinary scenes were witnessed outside the theatre. Suffragettes who attempted to make a demonstration were set upon by the populace, who tried to throw them into the river Liffey. The police intervened to protect the demonstrators, and in holding back the crowd frequently urged the women to be Irishmen. The suffragettes were thoroughly frightened by the onslaught of the crowd and were glad to seek refuge in street cars or in the lobby of the General Post Office.

B. F. BAILEY

Sells two more houses. The fine house on the trail to Mr. Charles Watkins and the 6-room house in University Park to Rev. Munton, of Blackfalds. You can keep people from picking up snuff.

One 8-room house, 24 x 26, 16 x 18, well and pump, chicken house, \$400.00; well, 2 lots, 50 x 214 each. This property is worth \$3,000.00. Will sell on easy terms at \$2300.00.

One 4-room house on dandy property, well located, lot 16 x 180, well and pump, chicken house, \$1,050.00 buys it before I leave.

CONSERVATION OF HUMAN RACE AS AN URGENT NEED; DEVELOPMENT OF DESERVING MEN AND WOMEN.

Dr. C. H. Parkhurst
There is one need of the time that is more urgent than any other. It is the conservation of the human race. It is the development of the deserving men and women. It is the conservation of the human race. It is the development of the deserving men and women.

We have lately learned to realize that our wealth in forests, water power and minerals has been dealt with so carelessly and extravagantly as to threaten seriously to impair our resources, and to cause mischief that only the prolonged purchase of a more cautious policy will avail to repair.

But our new policy of conservation will not be complete till it also extends itself outside the region of our material assets. Very much of the humanitarian work that is being done is being done in pursuance of the conservation idea, and is an attempt to prevent values in human bodies, minds and characters from being wastefully sacrificed.

Our thought just now is upon one particular class of people—men and women—whose embarrased condition is making constant appeal to any man who is known to be at all interested in those who have abilities and ambition, but whose abilities are rendered disappointed by the impious limitations of circumstances—people who could do something worth while but who are hampered by adverse conditions that they have no chance to get a start.

"Der Anfang ist immer schwer," say the Germans. It is comparatively easy to build a ship; the crisis comes at the launching.

It takes more steam to start a locomotive than it does to keep it running.

Once a seed has begun to germinate we can pretty confidently count on its becoming a sturdy plant.

The same holds to young humans as to ships, engines, and flowers that the job comes at the beginning.

No sensible person would advise the hampering of a fledgling. Things can be made too easy for the young aspirant as well as too hard.

Anti-talent shows can give a child a false idea of his gift, but he cannot pull himself up a perpendicular.

Enough must be put in to the child to give him a scrambling chance to get to the top. And that chance is what a lot of young people—boys and girls—do not have.

We are thinking only of those who have in them the makings of something, who are aware of the fact and who are hungry for it themselves, but who cannot do it all, cannot make opportunities when there is nothing to make opportunities of—young people who have an art impulse and want to cultivate it; or genius for mechanics or a pronounced leaning toward teaching, journalism, preaching, no matter what, but needing just enough help to get them on their feet and to put them on the road.

Not to give such one an initial push means a waste of values; it is neglect to conserve resources more valuable than timber or water supply.

Sometimes five hundred dollars will do it, or even one hundred, if only it is enough to help the wheels to begin to turn.

Or the need may be for money enough to buy a little farm, giving a mortgage on the land as security.

Appeals for just that kind of assistance are reporting themselves now, coming from all quarters. Now is the time to create an endowment, the income of which shall be applied in the manner proposed.

We have had immense money donated in the interest of advanced education, gifts that are especially to the advantage of those who have already gotten quite a way up the ladder, money without stint for the construction of large buildings.

It is said that if a man resident in Boston dies without leaving half a million in bequest to Harvard University, it is considered sufficient ground for breaking his will.

All these bequests are attractive to men and institutions that are already favored, but the people of the United States too much.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Public Building, Lacombe, Alberta," will be received at this office until 4.00 P.M., on Wednesday, August 14, 1913, for the construction of the building mentioned.

Plans, specifications and form of contract can be seen at the office of Mr. J. E. Cyr, Superintendent of Public Buildings, for Manitoba, Winnipeg, Man.; on application to Mr. W. Norman, Carleton Place, Public Building, Lethbridge, Alberta, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of a member of the firm must be given.

Each tender must be accompanied by an accepted cheque on the bank, payable to a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, July 20, 1913.

Newspapers will not be paid if this advertisement is inserted without the authority of the Department. (Jy13-2)

PUBLIC NOTICE
Notice is hereby given that as soon as is possible after the expiration of four weeks from the date hereunder an application will be made to the Minister of Railways and Telephones for permission to install a spur from the Canadian Northern Western Railway to the Beaver Dams Coal Company Mine in the S.W. of 11-39-22-W.4th.

SHE FANTED WITH THE AGONY

"Fruit-a-lives" Cured Her Kidney

"I don't let the world know the great debt I owe 'Fruit-a-lives' which saved my life when I had given up hope of ever being well again."

For six years, I suffered from dreadful Kidney Disease. My legs and lower back were so weakly that I could not walk. The pain in my side and legs would be so bad that I would faint with the agony. I tried every doctor and every medicine, but all I did was to make myself worse. I was so weak and so miserable that I gave up hope of getting well.

I had heard of 'Fruit-a-lives' and I bought a box for \$5.00. I took it as directed and in a short time, I began to feel better. The swelling went down—the pain was easier—and soon I was well. I have gained over 30 pounds since taking 'Fruit-a-lives' and my friends and I are now enjoying a perfect health.

"Fruit-a-lives" are sold by all dealers at a box for \$5.00, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

Montreal, Dec. 14th, 1910
I don't let the world know the great debt I owe 'Fruit-a-lives' which saved my life when I had given up hope of ever being well again."

BENTLEY NOTES

The Royal Bank of Canada

SUB-BRANCH TO LACOMBE:
Office hours 10 a.m. to 3 p.m.
EDWARD J. QUINN, Manager

Heavy rains on Friday and Sunday are retarding the haying operations, although the week of fine weather preceding saw a lot of hay put up in this vicinity.

All grain is nicely headed out and the growth is very rank. Early grain is nearly ready for the binder. Geo. Hamilton says he will cut his barley this week, if weather permits.

The Joint Lodge Picnic held at Brownlow's Landing last Wednesday was well attended, a large crowd gathering from the surrounding country. The Weather Man favored us this time with an ideal day, and the program of sports was pulled off as advertised. The baseball game was won by the Yeomen team; the tug-of-war by the Yeomen team; the 100 yard race by W. O'Neill, the best race by H. A. Brownlow, and the swimming race by Len Beldoss, who won the same last year. H. A. Brownlow's coconut shy was quite an attraction, and the demand for refreshments at the booth was very good.

Our worthy foreman, W. O'Neill, had quite an experience last Wednesday on his way to the picnic. Happening to take the Larson Trail, and the buggy being pretty well loaded, the team took a short cut between two trails, striking a muskeg, which was, of course, unknown to any of the people in the rig, and everyone had to unload in the mud before the buggy could be extricated. Of course, if Will had not had to have his arm around a camera, which he had in charge, it might have been different.

The Bentley school will open on Monday, August 12th, with Miss Christina Gill as teacher. The Bentley post office changed quarters last week, when the new post master, Geo. Hopkins, took charge of same and moved it across to the B. E. Williams store, where they are installing it.

It seems to be mis-represented, or at least mis-understood by many, that James P. McPherson has retired from the real estate business. Such is not the case, and he wishes to state that he has never thought of

retiring, but still has a good list of land and time to entertain anyone who is interested, and also a team at your service. Auctioneer Damron has the following sales listed for next week: The Clyde Evernden sale, to be held at the W. F. Evernden place, on the Bentley to Rimbey route, where there is an exceptionally fine list of horses. Sale will commence at one o'clock, Saturday, Aug. 17th.

On Wednesday, Aug. 14th, H. Wildman's cattle, implements, etc., will be sold at his place. Mr. Wildman has a choice lot of dairy cows which will no doubt sell at a sacrifice, as he is leaving the country, and everything must go.

Raspberries are plentiful here, and pickers nearly as thick as mosquitoes. J. B. McPherson has a "Red River Special" thrasher ordered and will go after a share of the threshing this year.

Dr. Evans stopped over on Wednesday night on his way home from Lacombe. The crowd at Gull Lake has held out exceptionally well this season, in spite of the rainy weather.

The Slaughter House

To the Editor:

There has been considerable agitation in your last two issues regarding the slaughter house nuisance. Now there is not any doubt in anyone's mind that it is a nuisance of the very worst kind, that it is a menace to the health of the people of the town or of any one that has occasion to go by it. But what is to be done about it?

The town council is powerless to act, and according to Mr. J. Krishna's letter the Rural Municipal Council is also powerless to do anything in the matter. The Provincial Health Officer has been appealed to with no results. Now there is one possible solution out of the difficulty which is worth trying. Let us appeal to our local member of the Provincial House to have him take the matter up with the proper authorities to have the nuisance removed. This is the proper time for him to get busy while the plums are being handed out. G. P. Smith of Camrose has landed the Normal School for that enterprising town. The Honorable Danson secured the demonstration farm for Olds; Charlie Steward has been handed a cabinet position and thus brought fame and for-

tune to his constituency; other members are getting money for roads and bridges for their constituents. Surely our local member would not be asking too much if he were to ask the government to have this nuisance removed. If he is successful in this I am sure that the people here will rise up and

call him blessed and that he will have added one more laurel to his already brilliant and useful career as a member of the Provincial House for Lacombe. RESIDENT.

I have sold four houses in two weeks—two more to sell. But the people here will rise up and

A SNAP
For quick sale, N. 1-27-40-24 W. 4th, \$12.00 per acre, terms. This is one of the best pieces of wild land in the district and is only two miles from Teas and 3 miles from Clive. Soil is first class; very little brush or waste. For further particulars call JOHN McKENTY, Lacombe.

C. S. Evernden SALE

8 Miles North-West of Bentley, 10 Miles South-East of Rimbey, on the W. F. Evernden Place, Main Bentley to Rimbey Road, on

Saturday, August 17th, at 11 o'clock

I will Sell to the Highest Bidder Without Reserve the following

HORSES 10 HEAD

1 black gelding, 5 years old, 1200 lbs. One black gelding, 4 years old, 1100 lbs. One black mare, 4 years old, 1200 lbs. One black mare, 3 years old, 1150 lbs. One pair grey mares, well matched, 7 and 8 years old, 2400 lbs. One pair grey mares, well matched, 3 and 4 years old, 2200 lbs. One bay mare, 9 yrs. old, 1200 lbs. One colt.

CATTLE 18 HEAD

Seven choice milk cows, all giving milk; three will be fresh early in winter; three yearling steers, two yearling heifers; six calves.

HOGS AND CHICKENS

ley.

Grandpa's Graham

It is just what many people
have been wanting. There is
nothing new about it. It is
the genuine old-fashioned gra-
ham. The kind Grandpa used
to use. It is simply good
milling wheat ground up with-
out anything taken from it or
added to it. In using "Grand-
pa's Graham" for baking one
part of it is used with one or
two parts of white flour, ac-
cording to taste, and a more
delicious, sweet bread cannot be
obtained. For porridge it must
be stirred in only when the wa-
ter is boiling vigorously, and
then 15 or 20 minutes of slow
boiling improves it.

Reasons for Its Use.
First—it is in itself a balanced
ration.

Second—the porridge properly
made and served with cream is
surprisingly delicious.

Third—it is very nutritious.

Fourth—a liberal use of
Grandpa's porridge and Grand-
pa's bread is a sure cure for
constipation and all ailments
arising therefrom.

Fifth—in view of its delicious,
nutritious and medicinal qual-
ities, it is decidedly economical.
The present generation by the
fancy of demanding nice, white
flour, regardless of ingredients
and process of making is suffer-
ing many ills. Those who will
place wholesome food ahead of
looks and will eat the diet of
their grandfathers, will obtain
their strength and health with
the consequent happiness.

Try the "Grandpa's Graham"
and prove for yourself its me-
rits.

For sale in most stores. Manu-
factured by E. S. Stanley, La-
combe.

OUR EDMONTON LETTER

(From our Own Correspondent)
Edmonton, Alta., Aug. 5.
Charles W. Cross, Attorney-Gen-
eral of the province of Alberta,
today received advice from
London, Eng., that the judicial
committee of the Privy Council
has granted an appeal in the
suit of the Crown against the
Alberta Railway and Irrigation
Company, holding that "when a
road allowance is interfered
with, the cost of any bridge
which may be required should
surely be borne by the party for
whose convenience and profit
this interference is allowed."

The appeal, which was taken
from the Supreme Court of Can-
ada, matters to a considerable
degree to the cost and main-
tenance of bridges crossing ir-
rigation canals in the southern part of
the province. Several hundred
bridges are affected. The de-
cision, Mr. Cross said in an in-
terview, will be the means of
saving millions of dollars to the
people all over Alberta,
where 300 bridges are under
construction or projected.

The ruling of the Judicial
Committee holds that a section
of the Irrigation Act, to which
frequent reference was made in
the arguments, has no applica-
tion in road allowances. The ac-
tion was commenced with two
typical cases. Land at a crossing
or originally vested in the
Crown for a single purpose
comes to be vested for the
purpose to some extent antag-
onistic, both touching closely the
public interest and both perpe-
tual. The section deals only
with public highways.

The decision says that the
first is a convenience to wayfar-
ers, the second is improving the
country by irrigation. The
first is still a paramount pur-
pose and the second is subor-
dinate, as the land is not freed
from the original purpose when
the company obtains authority
to take possession of it, nor
can it be freed from the pur-
pose except by the statutory
enactment. The committee
held that the obvious and pro-
per thing is to build bridges at
crossings where road allowances
are impassable by reason of
the company's canals.

The original suit was insti-
tuted by Attorney-General
Cross and formal judgment of
the province was entered in 1909
by Justice Scott, who ordered
the company to erect all bridges
and approaches. The ap-
peal was set aside by the
supreme court on the 20th inst.,
the court of appeal, to which an
appeal was taken, reversed the
finding of the trial court.

"The latest decision," Mr.
Cross said, "is bound to have
an important bearing upon fu-
ture legislation arising in Al-
berta in respect to the rights of
the people and of irrigation
companies."

When the Duke of Connaught,
governor-general of the Domini-
on of Canada, arrives in Ed-

monton the morning of Septem-
ber 3, the new parliament build-
ing, erected at a cost of \$2,-
500,000 will be in readiness for
occupancy. His Royal High-
ness will remain in Edmonton
until the night of September 4.
One of the functions on his tour
or will be the Governor's Ball,
for which invitations will be in-
sued in a few days. Mayor
George S. Armstrong is arrang-
ing for street decorations. Ed-
monton will be in gala attire
during the governor's stay, and
the representative of the crown
will be received and entertained
by officials of the city and pro-
vince. The Duke will make a
short stay at Red Deer on Sep-
tember 5, arriving at Calgary
the same afternoon, going
thence to Glenora on Septem-
ber 7 to officially open the ir-
rigation works near that town.
Afterward he will visit Macleod,
Lethbridge, Medicine Hat and
four British Columbia.

One hundred and fifty dollars
in gold has been appropriated
by the city commissioners as
prizes in a competition open to
employees of the street railway
system to serve greater Edmon-
ton. It is desired that the
plans show tentative extensions,
to which the city may build
each year until the entire work
is completed. The present sys-
tem covers 40 miles of streets.
The competition will close on
September 30, by which time
the department expects to have
several hundred plans. Necess-
arily the city need not follow
any plans submitted, the pri-
mary purpose being to get the
ideas of the men in actual ser-
vice. It is probable that these
suggestions will be worked in-
to a homogeneous plan. While
only street railway employees
are eligible to the prizes of \$75,
\$50 and \$25, the commissioners
welcome suggestions from
any source in Canada and the
United States.

Fifty-seven thousand five hun-
dred harvest hands, in addition
to those now on the ground,
will be required in the prairie
provinces to gather this
season's crop. This is 11,000
more men than were required
last year. It is estimated that
the wheat crop will be
fully 250,000,000 bushels. Most
of the extra help will come from
Eastern Canada and the United
States. The machines will be
put into the field between Aug.
10 and 15. The harvest will
be in full swing about Aug.
30. This program will put all
grains, including oats, barley
and flax, in stock by Septem-
ber 15—fully three weeks ahead
of the normal time. Hand-
reds of thousands of acres of
land have been added to the
wheat area in Alberta and the
neighboring provinces in the
last 12 months, and as many
thousand men have been added
to the ranks of the harvest
farmers, dairymen, hog raisers
and poultry growers.

Read This to A Poor Boy

Poverty is capital—a creative
force; a whip; a spur; an incen-
tive. Ambition dies on a diet
of truffle and goose liver. De-
termination grows sluggish on
a full belly.

Hard schools teach great les-
sons. Rich men's sons are
seldom rich men's fathers. An
unearned dollar is a fool-maker.
Those who do not understand
how to make money can't re-
tain it. You are not handicap-
ped—it's the idler, the pamper-
ed, overfed, careless, protected
boy who must fear the future.

Don't mind these few Spartan
rules. They are blessings. The
appetite for achievement stales
on sweets—hunger lends zest to
doggedness.

You must work—you have no
choice. You must earn or you
can't eat. There's no helping
hand behind you—you've got to
seize the opportunity before
you.

Responsibility is riding on
your shoulders, but duty broad-
ens your chest. Pack your chest
with courage and begin to win.
What you have missed in train-
ing you can make up in steady-
ness and readiness. Education
at its best merely points out
the most competent method
and if you keep your eyes open
and put your heart in your
tasks, common sense will show
you as much as a text book.

You are ignorant of theories,
but theory, after all, isn't nearly
so important as practice.

You stand today where Edi-
son and Wattmaker and Mar-
shall Field and Carnegie and
Lincoln stood at your age—on
your feet, with empty pockets,
a sound constitution and home
to make a dare anywhere.

The path to prosperity and fame
runs through your soul.

You can't achieve more than
you believe. You never will be
proportionate to your effort.
Whatever you can grasp with
clean hands in your property,

but you'll be knocked about,
by every man who wants what
you seek. If you have one yel-
low streak you haven't a show.
The years that follow you are
full of promise. Tomorrow is
always mightiest than yester-
day.

The newsmonger profits by the
trials and struggles of the past,
and he profits by the trials and
struggles of the future. He has
solved in this single generation
that in any previous century.

Legislation is tearing whip
after whip from the hand of
Privilege—hours are shorter,
education is better, and facilities
of every sort are at the disposal
of all who wish to improve
their minds and bodies.

But we offer no charity—only
courage and shirkers who find
concessions. We want the great
est ability at the top, so we are
merciless to quitters. It's the
one way in which we can truly
test efficiency.

When you are discouraged,
weep on your own shoulder,
pluck is ashamed to display its
tears.

Fling faith in the teeth of
ridicule, disaster and enmity.
Draw far—we unite close to
the stars in this century. Think
without ceasing.

Whatever Mind can plan, Will
can produce.—Herbert Kaufman
in Woman's World for August.

"We all medicines as meri-
tious as Chamberlain's Colic,
Cholera and Diarrhoea Remedy
the world would be much better
off and the percentage of suffer-
ing greatly decreased," writes
Lansky Scott, of Temple, Ind.

Lacombe, Alberta

Meeting at Mountain Grove

A well attended meeting of the farmers of this district was held in the Mountain Grove School House on Saturday August 3. Mr. J. B. Crocker occupied the chair, who called upon Mr. W. P. Puffer to give an account of the Rural Municipality bill, which will be voted upon on the 8th. He gave an interesting resume of the act. It was supposed to act as an equivalent to the county system as practiced in Eastern Canada and in the United States, without the attendant expenses. It gave the people more self government instead of everything having to be settled in Edmonton, and thus the people could reform laws with reference to epidemics, diseases, nuisances, and noxious weeds, stray cattle, etc. Taxation was to be on the basis of raw land and not the half tax, as at present. They would have the power of borrowing money to carry on current expenses and do improvements. As there were so many clauses (about 350 of them) he would rather that questions be asked him on any subject than the ratepayers were not clear on. A number of questions were then asked after which Mr. J. Eadie gave his views on the negative side of the bill. Mr. J. McVivill, Blackfalds, gave a short account of the origin of the bill as it was asked for by the Convention of Local Improvement Districts. Mr. J. J. Kasia and B. M. Gibson gave a few remarks after which the meeting closed.

ECKVILLE

Miss Eva Motter returned on Tuesday after spending a three weeks' vacation at the parental home near Wittenburg. Baying is now occupying the farmers' attention. Several tons of good hay were stored during the past week. Mr. J. Caughlin has had several men and teams repairing the washout on the C. N. E. grade, five miles west of Eckville. The track was raised in time for the train to go through to the Mountain House on Sunday. A meeting will be held in the school house Friday evening, August 9th. Mr. Michener, M. P. P. will be present to speak on the Rural Municipality act. In view of the vote to be taken on Aug. 12th, everybody should avail themselves of this opportunity to become acquainted with the changes proposed in this act. Mrs. D. Clausen has returned from a visit with friends in Red Deer. The business men's meeting on Thursday evening was well attended and plans were prepared for buying a lot and building a public hall. It is rumored that a third general store will be started here within a few weeks. A gentleman from Hamilton, Ontario will be in charge. Mr. Olson had forty men for breakfast on Sunday morning. They were travelling by train to the Northern Construction Co. Camp at the Mountain House, and as the train could not go through till Sunday morning the men had to stop here over night.

SNAPS AT THE NEW AND SECOND-HAND STORE
1 dray wagon, 1 binder, 2 sulky plows, 1 mower, 2 rakes, 1 light wagon, 2 breaking plows, 2 stubble plows, 25 shot guns, shot shells, 10 rifles, 1 piano, 1 pianola and 50 records, 3 saddles, 2 pair sheeps, trunks, pumps, beds, springs and mattresses, 30 carpets, 1 dresser, 1 stand, 3 bicycles, picture mouldings, 1 baby carriage, log chairs, cross-cut saws, harness and collars, ice cream freezer, pails, tubs, boilers, wringers, washing machines, cooking utensils, phonographs and records, best makes.
